Objective

Seeking opportunities to gain experience in Architecture (Design and Construction), Industrial Design, Exhibit/Retail Design, Interior Design, etc.

About me

My background and education are in Architectural Design. I have worked in small and large companies where I've been able to engage on a variety of projects, and work on both individual and team projects. The past few years I've gained experience in the fields of Retail Environments, Exhibit Design and Fabrication, PoP Display and more. I have been involved in the design, engineering, and building of numerous tradeshow exhibits and retail displays.

Please examine the attached resume for details of my qualifications. I look forward to discussing with you in person how I might contribute to your brand and company.

I look forward to hearing from you Sincerely, J Ariel Flores.

Interests-Hobbies

Architectural Design, Urban Design, Industrial Design, Graphics and Illustration art, Interactive Media, Motion Picture, Music, SciFi, My family, cycling, outdoors basketball, comics...

Education

1999-2003 CSU Polytechnic, Pomona Pomona, CA
Bachelor in Science Degree on Architectural Design

Experience

2005-03/2020 Studio Concepts Inc/Choura Events Carson, CA

Senior Designer

Studio Concepts Inc is a design and fabrication company working with a wide range of industrial design, interior design, retail design, product display, etc. Client work ranges from automotive, to apparel, footwear, health care, etc. The scope of design work also varies, from designing product display fixtures and trade show booths, to full interior design of retail stores and boutiques. www.studioc-inc.com

2004-Present Freelance work

Design Consultant/Drafter

Assist homeowners in the process of acquiring permits for residential additions, remodels, or code compliance/updates. Work ranges from creating as-built drawings, site analysis, space or interior design, to selecting type of construction, materials, finishes, etc. Many times projects will also include the handling of City Building Department Procedures, acquiring construction permits, or meeting with city officials, as well as coordinating and meeting with engineers when the project requires.

1999-2005 Jet Propulsion Laboratory Pasadena, CA

Associate Architect

Worked with Facility Utility Drawings, Architectural, Electrical, Mechanical as-built drawings, Drafting for construction and design of in-house office, laboratories, and administration spaces. Graphic Presentations and documents for on-coming projects or proposals. Run inspections on-site for Master Cadd drawings, and as-built drawings updates.

2004-2005 Gutman Associates Los Angeles, CA

Consultant/Designer

Worked in the custom design of three different Private Residences (Different locations and Clients). Worked included Site Analysis, 3D Digital Massing on Site, Site Views Proposals, etc. Also worked with Residential Schematic Design, Design Development, City Requirements, and Construction Drawings for clients.

Skills

I have worked with AutoCAD since release 14. I am Proficient with Adobe Photoshop, Adobe Illustrator, FormZ, 3D Studio Max. I work daily with Sketch Up and Rendering Plug ins. I constantly find my way around computers or network problems. I am Mac and PC compatible. I am fluent in speaking/writing/reading Spanish.
